## // Best Practices //

Government Eklavya College Dondilohara hereby adopts following practices as best practices to be implemented in the institution during academic session **2022-23**.

- 1. Gram Seva, Rashtra Seva:** Continuing the previous best practice, this year too, the NSS wing of the college will adopt a neighbouring village for its extension activities. The aim is to make the village socially, politically, hygienically more aware. To attain these aims the NSS wing will adopt the village by intimating the Sarpanch of the village. The NSS unit will organize various campaigns, drives and rallies in the adopted village. They will associate with the Aanganwadi and schools of the village if needed.
- 2. Donation and care of indoor plant by first year students:** First year students are to donate an indoor plant with pot jointly with fellow students as a part of their environmental assignments. They need to take care of the donated plant throughout the year. The health of the plant may be a determiner to award internal scores in the environmental studies. Later these plants will be taken care of by students from higher classes and by the peons.  
As the campus of the college is on rocky surface, the survival rate of outdoor plants is low. Therefore, Indoor plants are alternate options toward green campus initiatives.
